

HAVERSTOCK HILL SECONDARY SCHOOL Camden, London

Date
March 03 - July 04

Architect
Feilden Clegg Bradley Architects

Project Value
£17m

Project Status
Phase 1 completion August 2004
Phase 2 completion July 2005

The replacement of an existing collection of Victorian to 1960's buildings taken from a 1500 pupil secondary school while keeping the school open and functioning. Phase 1 is the construction of 64 classrooms and laboratories, phase 2 is the hall, recreational and dining facilities. The school is designed as a low energy building and incorporates high performance facades and natural stack cross-ventilators.
